

Social Cluster Association is 10 years old

festive conference in the DAY OF ELDERSD

# COMMON SPEAKING EXPERTS

1-2. OCT. 2018

# ANNOUNCEMENT

## **Esteemed Colleagues, Dear Friends,**

We invite the experts: nurses and caretakers, physiotherapists and dieticians, researchers, doctors, pharmacists, social workers, economists and policy makers to an international conference on the Day of Elderly.

The meeting provides an international insight to the interprofessional perspective – practice and innovative possibilities of elderly care. Our invited domestic and foreign lecturers present person centred, complex approach of care and models of harmonisation in social and health policies.

We are going to discuss about health and social boundary issues and educational problems. In addition to presenting general causal concepts, recommendable initiatives and new achievements, we shall give flow to individual experiences and special solutions – so we are looking forward to your active participation.

Topics of long-term care, stigmatising life situations, dementia and incontinence will be scrutinised this time by focusing on caregiving families, prevention and eldership in dignity.

The event will offer an outstanding opportunity for professionals and experts to share knowledge, to better understand different sectors, to ‘practice’ a common language and to create personal connections and a meaningful dialogue.

We are kindly inviting and awaiting all of you for common thinking and celebration.

On behalf of the organisers, sincerely,

**Dr. Ágnes Egervári**  
President  
Social Cluster Association

**Sponsor: MINISTRY OF HUMAN CAPACITIES**

# COMMON SPEAKING EXPERTS
